SUBJECT INDEX, VOLUME 155

Abdomen
Delayed presentation of blunt splenic injury, 745
Desmoid tumors in adults: the role of radiotherapy in their management, 754
Effect of cephalosporins on fascial healing after celiotomy, 361
Feeding jejunostomy: a small bowel stress test? 112
Intraabdominal sepsis after hepatic trauma, 284
Limiting the time of antibiotic prophylaxis in surgical wounds (E), 365
Magnetic resonance imaging versus angiography in the preoperative assessment of abdominal aortic aneurysms, 651
Management of carcinoma discovered unexpectedly at operation for acute appendicitis, 683
Protein leak from normal vasculature due to human malignant ascites, 765

Surgical gauze pseudotumor, 235
Treatment of infected abdominal aneurysms by extraanatomic bypass, aneurysm excision, and drainage, 655

Abscess
Complications of acute diverticulitis of the colon: improved early diagnosis with computerized tomography, 331
Computerized tomography scans for all patients with diverticulitis (E), 336

Acid, luminal
Effects of platelet-activating factor on canine gastric mucosal blood flow and permeability to luminal acid, 180

Adenoma
Hyperparathyroidism, cirrhosis, and portacaval shunt. A new clinical syndrome, 76
Operation for hyperthyroidism. Methods and rationale, 395
Successful localization of parathyroid adenomas by magnetic resonance imaging, 370
Villous adenoma (E), 369

Adhesive, bucrylate
Endoscopic closure of bronchopleural fistulas using a tissue adhesive, 415

Alcohol
Influence of portal hemodynamics on long-term survival of alcoholic cirrhotic patients after small-diameter portacaval H grafts, 152
Portal hypertension. A fifteen year perspective, 6
Possible mechanisms of acute pancreatitis induced by ethanol, 49

American College of Surgeons
The American College of Surgeons: 75th anniversary and reaffirmation (E), 211

Amino acids
Reversal of neurochemical aberrations after tumor resection in rats, 124

Amnion
Human amnion as a bioprosthesis for bile duct reconstruction in the pig, 635

Amputation
Rehabilitation of the cancer patient, 791

Amylase
Puzzling persistent hyperamylasemia, probably neither pancreatic nor pathologic, 453

Anaphylactic shock
Hemodynamic and morphologic alterations after experimental administration of protamine sulfate, 735

Anastomoses
Analysis of techniques and results in 347 consecutive colon anastomoses, 597
Single-layer end-on continuous suture of colonic anastomoses, 611

Anastomotic leakage
Limitations and dangers of Gastrografin swallow after esophageal and upper gastric operations, 495

Aneurysms
Magnetic resonance imaging versus angiography in the preoperative assessment of abdominal aortic aneurysms, 651
Treatment of infected abdominal aneurysms by extraanatomic bypass, aneurysm excision, and drainage, 655

Angiography
Comparison of transcutaneous oximetry, vascular hemodynamic measurements, angiography, and clinical findings to predict the success of peripheral vascular reconstruction, 551
Magnetic resonance imaging versus angiography in the preoperative assessment of abdominal aortic aneurysms, 651

Anomalies
Pancreatitis associated with pancreas divisum: results of surgical intervention, 641

Anorexia
Reversal of neurochemical aberrations after tumor resection in rats, 124

Antibiotics
Effect of cephalosporins on fascial healing after celiotomy, 361
Factors influencing the morbidity of colostomy closure, 594
Limiting the time of antibiotic prophylaxis in surgical wounds (E), 365
Topical antibiotics in the high-risk biliary surgical patient. A prospective, randomized study, 337

Anticoagulants
Anticoagulation: a surgical perspective, 268

Antigens
Recurrence of colorectal cancer after hepatic resection, 378
Reoperation directed by carcinoembryonic antigen level: the importance of a thorough preoperative evaluation, 227

Antilymphocyte globulin-azathioprine
Incidence and treatment of candida esophagitis in patients undergoing renal transplantation. Data from the Minnesota prospective randomized trial of cyclosporine versus antilymphocyte globulin-azathioprine, 311

Anus
Anorectal function and defecation dynamics in patients with rectal prolapse, 206

Aorta
Acute aortic occlusion, 405
Antegrade aortorenal bypass graft: a new alternative, 647
Aortic dissection. A six year experience with 117 patients, 697
Magnetic resonance imaging versus angiography in the preoperative assessment of abdominal aortic aneurysms, 651
Management of aortic prosthetic infections, 327
The reason for cardiac output reduction after aortic cross-clamping, 578
Vascular grafts in microvascular surgery. An experimental study, 258

Appendicitis
Bacteriuria in appendicitis, 356
High-resolution real-time ultrasonography. A new tool in the diagnosis of acute appendicitis, 93
Influence of surgeons' experience on postoperative sepsis, 322
Management of carcinoma discovered unexpectedly at operation for acute appendicitis, 683

Appendix
Adenocarcinoma of the appendix, 470
High-resolution real-time ultrasonography. A new tool in the diagnosis of acute appendicitis, 93

Arteries
Acute aortic occlusion, 405
Alexis Carrel: Jules Verne of cardiovascular surgery (E), 420
Antegrade aortorenal bypass graft: a new alternative, 647
Aortic dissection. A six year experience with 117 patients, 697
Comparison of transcutaneous oximetry, vascular hemodynamic measurements, angiography, and clinical findings to predict the success of peripheral vascular reconstruction, 551
Doppler detection of arteriovenous fistulas after in situ saphenous vein bypass, 263
Influence of portal hemodynamics on long-term survival of alcoholic cirrhotic patients after small-diameter portacaval H grafts, 152
Influence of preoperative risk factors and the surgical procedure on surgical mortality in renovascular hypertension, 770
Initial control of bleeding from esophageal varices with the Sengstaken-Blakemore tube. Experience in 82 patients, 509

A multicenter comparative study of cefotetan once daily and cefoxitin thrice daily for the treatment of infections of the skin and superficial soft tissue, 5A:91
A multicenter study of the in vitro antianaerobic activity of cefotetan compared with other antimicrobial agents, 5A:47
Analysis of prothrombin time prolongation in North American cefotetan clinical trials: questions and answers, 5A:44
Antibiotics in surgery. An overview, 5A:11
Cefotetan: a perspective for the surgical patient, 5A:108
Cefotetan: a review of the microbiologic properties and antimicrobial spectrum, 5A:16
Cefotetan: summary of the symposium from an internist's viewpoint, 5A:103
Cephalosporin antibiotics: molecules that respond to different needs, 5A:1
Cephalosporin therapy in intraabdominal infections. A multicenter randomized, comparative study of cefotetan, moxalactam, and cefoxitin, 5A:61
Comparative effectiveness and safety of cefotetan and cefoxitin as prophylactic agents in patients undergoing abdominal or vaginal hysterectomy, 5A:81
Comparative pharmacokinetics of cefotetan and cefoxitin in patients undergoing hysterectomies and colorectal operations, 5A:67
Cost-effectiveness study of cefotetan versus cefoxitin and cefotetan versus combination antibiotic regimens, 5A:96
Criteria for in vitro susceptibility testing of cefotetan. Correlations with clinical and bacteriologic responses, 5A:24
Impaired hemostasis caused by beta-lactam antibiotics, 5A:30
Kinetics and action of N-methylthiotetrazole in volunteers and patients. Population-based clinical comparisons of antibiotics with and without this moiety, 5A:40
Multicenter clinical trials comparing cefotetan with moxalactam or cefoxitin as therapy for obstetric and gynecologic infections, 5A:56
Multicenter open trial of cefotetan and cefoxitin in elective biliary surgery, 5A:77
Newer cephalosporins: lessons to be learned from clinical trials in intraabdominal infections, 5A:5
Overview of cephalosporin prophylaxis, 5A:52
Results of a multicenter, comparative study of single-dose cefotetan and multiple-dose cefoxitin as prophylaxis in patients undergoing cesarean section, 5A:86
Single-dose cefotetan versus multiple-dose cefoxitin as prophylaxis in colorectal surgery, 5A:71
The conversion of cefoxitin usage to cefotetan: an interdisciplinary approach, 5A:101

Techniques
A new incision for subfascial ligation of perforating veins in chronic venous ulcers of the leg, 615
Doppler detection of arteriovenous fistulas after in situ saphenous vein bypass, 263
Endoscopic closure of bronchopleural fistulas using a tissue adhesive, 415
Modified technique of sphincteroplasty with the use of a specially prepared cannula, 417
Retroperitoneal approach to the Warren shunt, 606
Segmental splenectomy using the ultrasonic surgical aspirator, 266
Single-layer end-on continuous suture of colonic anastomoses, 611
Stapling techniques for easy construction of an ileal J-pouch, 783
Suturing techniques of surgeons utilizing two different needle-holder grips, 250

Thoracostomy tubes
Introducer insertion of mini-thoracostomy tubes, 693

Thrombocytopenia
Splenectomy for cytopenias associated with systemic lupus erythematosus, 391

Thrombosis
Anticoagulation: a surgical perspective, 268
Effects of intermittent pneumatic leg compression for prevention of postoperative deep venous thrombosis with special reference to fibrinolytic activity, 602
Surveillance of deep vein thrombosis in asymptomatic total hip replacement patients. Impedance phlebography and fibrinogen scanning versus roentgenographic phlebography, 400

Thyroglossal duct
Further thoughts on thyroglossal duct cysts (E), 744
Thyroglossal duct cysts. A thirty year experience with emphasis on occurrence in older patients, 741

Thyroid gland
Diagnostic imaging techniques in thyroid cancer, 215
Operation for hyperthyroidism. Methods and rationale, 395

Tobramycin
Topical antibiotics in the high-risk biliary surgical patient. A prospective, randomized study, 337

Transfusion
Intraabdominal sepsis after hepatic trauma, 284
Relationship of postoperative septic complications and blood transfusions in patients with Crohn's disease, 43

Transplantation
Acute graft-versus-host disease of the intestine. A surgical perspective, 680
Alexis Carrel: Jules Verne of cardiovascular surgery (E), 420
Cyclosporine absorption in apancreatic dogs, 467
Effect of cyclosporin A on hepatocyte proliferation after partial hepatectomy in rats: comparison with standard immunosuppressive agents, 245
Heart and kidney transplantation in the rat using a mixed cuff-stent microsurgical technique, 590
Immunosuppression in hepatic transplantation (E), 249
Incidence and treatment of candida esophagitis in patients undergoing renal transplantation. Data from the Minnesota prospective randomized trial of cyclosporine versus antilymphocyte globulin-azathioprine, 311
Repeat parathyroid operation associated with renal disease, 686
Reticuloendothelial clearance and splenic mononuclear cell populations after resection and autotransplantation, 298

Trauma
Cytomegalovirus infection and immunosuppression (E), 297
Delayed presentation of blunt splenic injury, 745
Effect of immunoglobulin G therapy on serum antibody titers to cytomegalovirus in burn patients, 294
Impact of advanced trauma life support training on early trauma management, 704
Infection as a contributory cause of death in patients hospitalized for motor vehicle trauma, 278
Intraabdominal sepsis after hepatic trauma, 284
Patterns of injury in helmeted and nonhelmeted motorcyclists, 708
Plasma expanders. An update, 425
Prevention of posttraumatic pulmonary platelet trapping by portacaval transposition, 289
Right ventricular dysfunction in multiple trauma victims, 712
Scientific basis of "aggressive traumatology" in lesions of the locomotor system (E), 537
Segmental splenectomy using the ultrasonic surgical aspirator, 266
Shotgun wounds involving the head and neck, 776
Soft-tissue trauma and platelet trapping (E), 293
Splenic salvage quantified by uptake of heat-damaged radiolabeled red blood cells. Experimental and clinical studies, 303
The gut as source of sepsis after hemorrhagic shock, 187
Trauma and the neglected science of epidemiology (E), 283
Treatment of pancreatic cutaneous fistulas with a somatostatin analog, 36
Tubes
Initial control of bleeding from esophageal varices with the Sengstaken-Blakemore tube. Experience in 82 patients, 509
Introducer insertion of mini-thoracostomy tubes, 693
Tumors, benign
Negative findings on fine-needle aspiration biopsy of solid breast masses: patient management, 387
Ulcer
A new incision for subfascial ligation of perforating veins in chronic venous ulcers of the leg, 615
Another view on the management of perforated giant duodenal ulcer (E), 442
A prospective, randomized study comparing highly selective vagotomy and extended highly selective vagotomy in patients with duodenal ulcer, 443
Gastric disconnection in the management of perforated giant duodenal ulcer, 439
Trends in the surgical management of duodenal ulcer. A fifteen year study, 436
Ultrasonography
Delayed presentation of blunt splenic injury, 745
Diagnostic imaging techniques in thyroid cancer, 215
Doppler detection of arteriovenous fistulas after in situ saphenous vein bypass, 263
Duplex ultrasonography as a noninvasive technique for assessing portal hemodynamics, 70
High-resolution real-time ultrasonography. A new tool in the diagnosis of acute appendicitis, 93
Upper extremities
Rehabilitation of the cancer patient, 791
Urinary tract
Bacteriuria in appendicitis, 356
Vagotomy
A prospective, randomized study comparing highly selective vagotomy and extended highly selective vagotomy in patients with duodenal ulcer, 443
Truncal vagotomy as a possible potentiator of gastric atony, 199
Vascular permeability
Protein leak from normal vasculature due to human malignant ascites, 765
Veins
Alexis Carrel: Jules Verne of cardiovascular surgery (E), 420
A new incision for subfascial ligation of perforating veins in chronic venous ulcers of the leg, 615
Anticoagulation: a surgical perspective, 268
Comparison of transcutaneous oximetry, vascular hemodynamic measurements, angiography, and clinical findings to predict the success of peripheral vascular reconstruction, 551
Doppler detection of arteriovenous fistulas after in situ saphenous vein bypass, 263
Duplex ultrasonography as a noninvasive technique for assessing portal hemodynamics, 70
Effects of intermittent pneumatic leg compression for prevention of postoperative deep venous thrombosis with special reference to fibrinolytic activity, 602
Influence of portal hemodynamics on long-term survival of alcoholic cirrhotic patients after small-diameter portacaval H grafts, 152
Influence of preoperative risk factors and the surgical procedure on surgical mortality in renovascular hypertension, 770
Initial control of bleeding from esophageal varices with the Sengstaken-Blakemore tube. Experience in 82 patients, 509
Long-term patency of polytetrafluoroethylene graft fistulas, 644
Lower extremity revascularization with in situ saphenous vein for critical ischemia, 701
Portal hypertension. A fifteen year perspective, 6
Protein leak from normal vasculature due to human malignant ascites, 765
Retroperitoneal approach to the Warren shunt, 606
Selective distal splenorenal shunt versus side-to-side portacaval shunt. Clinical results of a prospective, controlled study, 564
Surveillance of deep vein thrombosis in asymptomatic total hip replacement patients. Impedance phlebography and fibrinogen scanning versus roentgenographic phlebography, 400
Vena cava
Selective distal splenorenal shunt versus side-to-side portacaval shunt. Clinical results of a prospective, controlled study, 564
Ventricles
Right ventricular dysfunction in multiple trauma victims, 712
Surgical treatment of ventricular septal rupture complicating myocardial infarction, 587
Warfarin
Anticoagulation: a surgical perspective, 268
Warren shunt
Retroperitoneal approach to the Warren shunt, 606
Wounds, surgical
Effect of cephalosporins on fascial healing after celiotomy, 361
Limiting the time of antibiotic prophylaxis in surgical wounds (E), 365
